Dear Sir:

Responsive to the action dated May 24, 2007, applicants will attempt to address the Examiner's issues.

The Examiner states "The response does not make clear what other pages should have been submitted." Page 18, and the paper copy of the sequence listing, are both part of the specification, and were submitted. That's all.

The Examiner also says that all missing SEQ ID NOS: were not fixed. The Examiner does not indicate what she feels is missing.
